JONATHAN HOUGHTON

LAI D TO REST

The remains of Jonathan Houghton, late chief of police, were laid to rest at Coleman on Saturday afternoon. The funeral cortege, headed by representatives of the R.C.M., Police under Sgt. J. Cawsey, was made up of representatives of the Canadian Legion, B.E.S.L., the Masonic Order, L.O.O.F., and citizens. Service at the United church was conducted by Rev. Roy Taylor, assisted by Rev. A. E. Larks, of Blairmore. Favorite hymns of the deceased were sung and a solo, "Whispering Hope," was beautifully rendered by Miss Winona Taylor. At the graveside the "Last Post" was sounded, and all that was mortal of a noble citizen was consigned to earth.

Mr. Houghton's birthplace was Sutton, St. Helen's, Lancashire, England. He came to Canada in 1911, and was employed at the collieries at Passburg under the late W. L. Hamilton until operations were closed down. He then was employed on the tippie crew at McGillivray Coal Co., until in January of 1917 he went over to France with the 192nd Battalion, C.E.F. Returning to Coleman he resumed his work at McGillivray mine, until on July 10, 1919, he was appointed town constable, which position he held till this year.

Members of the family are his wife, formerly Miss Mary Jane Hampton, who was married to Mr. Houghton in England; and sons Harold, of Calgary; Ernie and Sidney, of Coleman; and daughter Hilda, the last two residing at home.

Sisters living are Mrs. W. Borrows and Mrs. W. Antrobus, Coleman; Mrs. T. Thornton, Edmonton; Mrs. Rhoda Robertson, England; and brothers, Arthur, Moose Jaw; James and Thomas, both living in England.

He took an active part as a member of the Masonic and Oddfellows' lodges in Coleman, being an officer in each society. Of a very courteous and obliging nature, he gained a large circle of friends who were grieved to hear of his passing, and whose sympathy is extended to the family.

"UNITED FRONT" RALLY

OF PASS UNITED CHURCHES

All congregations of the United church of Canada in the Crows' Nest Pass will be held at Coleman Community hall on Sunday afternoon next, June 16th at 3:30 o'clock to celebrate together the tenth anniversary of church union. The guest speaker for the occasion will be Rev. A. K. McMin, B.A., of Wesley church, Lethbridge. The senior and junior choirs of Bellevue church, under the direction of Mrs. R. Upton, A.T.C.M. will render special music selections. The respective congregations will meet in their own churches at about 2:45 p.m. and form a motor cavalcade to Coleman.

Car-owners are earnestly requested to co-operate in making this rally a success by using their cars for transportation. Either arrange for your own load or volunteer to take a load; but you are requested to form a procession to Coleman. Voluntary transportation being somewhat uncertain, people desiring to go should endeavor to make their own transportation arrangements.

We know of men right in the town of Blairmore who would be willing to gather genuine blue spruce trees from our surrounding country at a price of less than two dollars each on contract—and they could make good money at that. There is quite a spread between that two-dollar figure and figures ranging from 8 to 11 bucks.

JULY FIRST TO BE BIGGEST DAY IN BLAIRMORE'S HISTORY

Judging by plans being formulated, it seems certain that Monday, July 1st, 1935, will be the biggest day in the history of Blairmore, and probably the Pass.

Early this week, large posters were erected throughout the entire Pass from Medicine Hat to Nelson, and word has already been received that Blairmore may expect visitors and competitors from practically all points within that area.

The programme will start promptly at 10 a.m., and will include foot races, sports, baseball and softball tournaments and track and field events.

Big features will include a mile bicycle race, for the Trono challenge cup; pyramid building, 2 1/2-mile marathon for the Billy Royle cup, and the 5-mile senior race for the Pinkney jubilee trophy. Word has been received from Jerome Platt, of Brant, winner of this trophy last season, stating that he will again compete.

Blairmore and Fernie will try conclusions at football. Both ladies and gents will engage in softball, and seniors and juniors in baseball. Pyramid building and other gymnastic stunts will be staged by the Workers' Sports Association.

The Coleman band will be in attendance during the day.

Several meetings of the Blairmore Amateur Athletic Association have been held, and at last night's meeting appointment of sub-committees and officials took place. W. H. Chappell, junior, is to be official referee; J. Rudd, Norman Oliver, A. Tiberg and Tom Crowder, inspectors; L. Houbreys, J. Krokoy, sr., Joe Steffano, Arthur Grant and R. Galliot, special police to co-operate with the R.C.M. police; S. G. Bannan, field secretary; Joe McDougall, starter; S. Trono, W. A. Beebe, D. Lewis and William Kerr, timekeepers; Milt Congdon, official surveyor; Jamieson, Rudd, Howe and Rossi, special committee; John Huchala, announcer; Marshall Hamilton and Ted Royle, special field men.

It was decided at this meeting to add a mile relay race to the program. The next meeting of the association will be held at the Greenhill hotel on Wednesday, June 26th, at 8 p.m.

Around fifty new houses are in course of erection in Coleman. We doubt if there is another town in Alberta that can compare with Coleman in that regard right now. And there isn't a solitary word of the municipality desiring to introduce a "housing scheme." People of Coleman are contented and glad to own their own houses.

John Irwin, M.L.A.; Hugh C. Farthing, M.L.A.; Dr. J. V. Follett and J. V. H. Milvain received acclamations at the Calgary Conservative convention last week for the legislature nominations. Mr. Milvain is a son of Mr. and Mrs. James Milvain, of the Rock Creek district.

WORLD HAPPENINGS BRIEFLY TOLD

The 400th anniversary of the first printed English Bible will be celebrated next October 4. It has been announced.

The U.S. bureau of agricultural economics has estimated the total wheat area for harvest this year in 26 countries at 190,954,000 acres, compared with 185,776,000 acres in 1934 and 191,132,000 acres in 1933.

Britain has accepted the Sultan of Johore's £500,000 gift, offered as a silver jubilee contribution to strengthen the Singapore naval base. Prime Minister Ramsay MacDonald told the Commons.

The United States' treasury summed up its financial situation for the first 11 months of the year ending in June and discovered it had gone "in the red" \$3,133,471,295 during that time.

Soviet Russia's policy in the Far East will be one "unbending as steel" in all matters regarding defence of the country's interests. Karl Radek said in an article in the official newspaper Izvestia.

The venom of the black widow spider is good for relieving the pain of angina pectoris. Its use for this was described to the American Institute of Homoeopathy by Dr. Linn J. Boyd, of the Homoeopathic College.

The Countess of Esborough handed over to the board of trustees of the King George Silver Jubilee £237,799 and records of promises that will bring total contributions of the fund to \$420,529.

The government has no immediate plans for amending the committee branch, Minister of Labor W. A. Gordon announced in the House of Commons. The present maximum is \$1,200 and the interest rate 4 1/2 per cent.

Alexander Korda, head of London Film Productions, has acquired the sole official world rights for producing a film version of the late Col. T. E. Lawrence's book, "Revolt in the Desert," it was announced in London.

Recovery Obstacles

United States Writer Calls For Reciprocal Trade Efforts

Commercial policies of the United States were described by Peter Molyneux, editor of the Texas weekly and a trustee of the Carnegie, Mr. de Valera's administration, as "the greatest obstacle to world recovery." Writings in "International Conciliation," a publication of the endowment, he said: "I mean the policy embodied in the rates of the Hawley-Smoot tariff act, the policy exemplified by the American attitude on war debts, the policy which prompted the almost unanimous enactment by congress of the Johnson Foreign Security Boycott act, the policy which every foreign country encounters at our shores and along our borders when it attempts to ship its goods to us in exchange for our own."

Molyneux called the reciprocal trade efforts of Secretary of State Cordell Hull a step in the "right direction." Currency stabilization was held "absolutely essential to world recovery" and he added that so long as the United States pursues its present policies "any lasting of international exchange will be impossible."

Reciprocal Judgments

Five Provinces Take Advantage Of Dominion Legislation

Judgments of Alberta courts became enforceable in Ontario as the Ontario cabinet passed an order-in-council taking advantage of the reciprocal judgments enforcement act. Alberta took similar action to make Ontario judgments enforceable there, a short time ago.

Five provinces have taken advantage of the Dominion legislation which applies to both supreme court and county court decisions. They were British Columbia, Saskatchewan, Alberta, New Brunswick and Ontario.

Vimy Pilgrimage Becomes Great Peace Movement

Registrations Of Ex-Service Men Pouring In To Canadian Legion

The Vimy and Battlefields Pilgrimage of the Canadian Legion of the British Empire Service League of which the famous Padre of the Canadian Corps, Canon Scott of Quebec, is Pilgrim No. 1, has already received 548 applications from ex-service men, despite the fact that the Vimy Ridge is still under the Canadian White Star and Canadian Pacific Lines do not sail from Montreal until July 15th and 16th, next year, 1936. In addition twelve hundred applications have been received by the government from ex-service men in the Civil Service for leave for the duration of the Pilgrimage.

This event is going to be one of vast significance. It is a Peace Movement on a colossal scale. It is anticipated that over 25,000 Canadians—ex-soldiers, their wives, children, fathers, mother sisters and brothers—will visit the cemeteries, the battlefields and attend the unveiling of the Canadian Memorial at Vimy Ridge.

The all-inclusive cost of the entire trip—as outlined below—is \$160.00. Sail from Montreal on the 15th or 16th, 1936; arrive France, July 24th; visiting graves, battlefields, towns in England and Belgium (ships held in French port), July 24th, 25th, 26th; unveiling Vimy Ridge Canadian Government War Memorial, July 26th; arrival England-London, July 26th; arrival England-London (ships held in French port), July 27th; London (four days), July 27th-30th; arrival in Canada (Montreal), August 8th.

After prolonged negotiations, the Atlantic Conference granted an ocean rate of \$120.00 return—the lowest rate possible to obtain. State-rooms (3rd class) and the regular menu will be provided. Freedom of the ship will be granted. Cabin class will be available to those wishing to pay higher rates. The ship is so big that Ocean Travel accommodation to-day is vastly superior to that of 1914-1918.

The remaining \$40.00 of the \$160.00 is to provide for rail and road transportation in France, billeting accommodation and meals in France and beds and breakfasts for four days in England. Passports will also be provided for France, Belgium, England, and accident insurance will also be provided in respect to those passengers acceptable to the Insurance Companies for this purpose. In addition, an official badge, beret, haversack and guide book will be provided. The amount quoted is made up. Railway ticket agents, Ocean Line agents and Land Tour Companies are supplied with full information and application forms to take care of the many who will be participating in the Pilgrimage.

The Legion will not profit by this venture. The organization expresses will be taken care of through ordinary commissions. Any balance that may remain in the special Pilgrimage bank account after all outstanding expenses are met, will be placed in a special fund and allocated to such veteran purposes as the National Pilgrimage Committee may designate. Commissions have no bearing on the price of the ticket. The ocean rate is set by the Atlantic Conference of Steamship Lines and is commensurate with the cost of the same body so that whether commissions are accepted or not the price of the ticket remains the same. The potentialities of the Pilgrimage stagger the imagination. Never before in the history of the world has a nation so far removed from the scene of hostilities left so much of its dead buried in foreign soil as in a battle for Freedom. In a War to end War, Canada sent 500,000 troops to France. Sixty thousand are buried there to-day in cemeteries from Ypres to Albert to Fromelles to Mons. On Sunday, July 26th, thousands of Canadians and a brilliant band of music will gather on Canadian soil at Vimy Ridge to unveil Canada's War Memorial. Completed after seventeen years of unremitting labour.

This memorial, designed by Walter S. Allward, a Canadian, is erected by the Canadian Government of Vimy Ridge—dedicated by the French Government to the Dominion of Canada—as "That bit of foreign soil that will forever remain Canadian."

Major General, The Honourable S. C. Mewburn, C.M.G., chairman of the Canadian Battlefields Memorial Commission, has the assurance that the Government will co-operate and participate in the unveiling ceremonies, at the time of this Pilgrimage.

Belief Not Shaken

You'd think once was enough, but: When Police Sergeant Charles McWilliams of Cleveland went to the home of Mrs. Mary Krafick to question her about the gypsies who stole \$900 from her while reading her fortune, he found the woman was not at home. She had gone to another fortune-teller to "have some tea leaves read," her husband said.

Leaves Manuscript

The late Lawrence of Arabia left a manuscript recording his life in the Royal Air Force, it was disclosed, with instructions it should not be published before 1950. The manuscript, entitled "The Mint," was described as "of forceful character," containing comment on the Royal Air Force which made immediate publication impossible.

Well Qualified For Post

New U.S. Minister To Canada Highly Spoken Of

Norman Armour, the new Minister to Canada from the United States, received complimentary send-offs. The New York Herald Tribune, having spoken highly of his training and temperament, said: "Mr. Armour has the useful—and for a diplomat, the rare—quality of being a 'good mixer'. Incidentally, warm sympathy for the Canadian people and a keen sense of the importance of Canadian-American relations adds to his other qualifications for this post."

The New York Times, having remarked that the appointment of Mr. Armour is a merited promotion and also a recognition of the importance of the Canadian post, went on to say: "His appointment to Canada 'regularizes' the position and gives fresh assurance to Canada that we are sending a representative of our best in American cultural background as well as in acquaintance with world affairs. It is highly important that we should have especially competent diplomats in posts nearest our own borders, among neighbors with whom we have most in common."

Hailed by the vice-presidents as the "laureate of Canada," Sir Charles G. D. Roberts of Toronto was given an ovation at Montreal as he took the chair at a session of the Canadian Authors' Association annual convention. Writers from all parts of the Dominion rose to cheer the dean of Canadian literature who was created a knight bachelor in the birthday honors list.

Professor Kirkconnell, Winnipeg, vice-president, expressed the gratification of Sir Charles' fellow writers on the honor paid him. Prof. Kirkconnell led a discussion on poetry which resulted in adoption of a resolution, moved by J. Murray Gibson of Montreal, in which the association put itself on record as desiring to sponsor a poetry magazine and empowered the executive committee to arrange for publication if such a project were found to be feasible financially.

Girl Trains Football Team

Teacher Learned Game By Watching Her Brothers Play

So effective has Miss B. Casey, schoolmistress of Bradford School at Bradford, England, trained her football team of boys that they have won second place in the league for the second successive year. Miss Casey learned the game by watching her brothers play, and is herself a good hockey player. She uses blackboard sketches in illustrating new plays to her team, who have scored 55 goals, while competing teams produced only eight.

Planning National Park

Would Be Scotland's Memorial To King George's Jubilee

A plan to establish a national park for Scotland in the heart of Argyllshire, one of the country's most famous beauty spots, is being promoted. A committee will meet shortly in Edinburgh to discuss the project. The area suggested covers over 30,000 acres in the Loch Lomond district, and the park would be known as the "Silver Jubilee Forest Park" to perpetuate the memory of King George's 25 years' reign.

SUNDAY SCHOOL LESSON JUNE 16

CHRISTIAN STEWARDSHIP

Golden text: It is required in stewards that a man be found faithful. I. Corinthians 4:2. Devotional reading: Psalm 96:1-8.

Explanations And Comments

Pride of Possessions May Lead To Forgetfulness of God, Deuteronomy 8:11-7. The children of Israel are about to enter the Promised Land after their long wilderness wandering, and Moses, their leader, fears that they may there become so prosperous that they will be in danger of forgetting God and of failing to keep his commandments. Against this temptation to pride (lest their heart be "lifted up") because of fine houses, numerous flocks and herds, and abundance of silver and gold, Moses warns them, and reminds them of what they owe God, who brought them out of bondage in the land of Egypt, and led them through the great and terrible wilderness. He and a man would probably be put out of action in about five minutes.

It is God who Gives Power to Acquire Wealth, Deuteronomy 8:18. "The first and fundamental principle of stewardship lies in God's ownership of all things. The God who has created life in the beginning has a priority claim upon all life. There can be no property either without society or without God; neither would there be value to property without society or without the God who guarantees all life" (Stewardship Lessons).

God Loves a Cheerful Giver, II. Corinthians 9:6. Generosity in giving will enrich one's own life. Paul wrote the Corinthians. A man who would the greater part of his supply of wheat, being loth to part with it, would have a scanty harvest from the smaller amount sown, and the typical grower if kept too long would spoil. It is from a bountiful sowing that a bountiful harvest is reaped, whether of wheat or of good deeds.

Recipes For This Week

(By Betty Barclay)

ORANGE VITAMIN SALAD

(Serves 4)

4 to 6 small oranges
Lettuce
1/2 cup grated coconut
1/2 cup grated carrots
Pare oranges and cut in thin slices. Cut -slices in halves. On lettuce-covered salad plates, arrange a circle of orange slices, being generous with fruit. Sprinkle with grated coconut and grated carrot. Serve at once with mayonnaise, into which 1/2 as much orange juice has been thoroughly blended.

ALMOND WAFERS

1/2 cup butter
Flavoring of vanilla
1/2 cup confectioners' sugar
Few grains of salt
1/2 cup sweet milk
Scant cup bread flour
Grated sweet almonds.
Cream the butter and add the sugar slowly, then the salt. Add the milk as slowly as possible, not more than a drop at a time. Then add the flour and the flavoring. Spread in a very thin sheet on the bottom of an inverted roasting pan. Sprinkle over with the grated almonds. Mark in three-inch squares and bake in a very slow oven until delicately browned. Cut the squares apart with a sharp knife and roll them up while warm. They may be filled with whipped cream for serving.

Little Journeys In Science

CHLORINE

(By Gordon H. Quest, M.A.)

Chlorine is a greenish yellow gas which possesses a very disagreeable odor. When it is inhaled it has a very irritating action upon the membranes of the nose and throat, producing coughing, inflammation, and even death. Hence it is quite rightly called a poisonous gas. Chlorine may be easily condensed to a golden yellow liquid, and as such is stored in strong lead-lined cylinders holding from about forty to sixty pounds. It was the first poison gas used in the World War. The first attack was made by the Germans on April 22, 1915. They concealed tanks of liquid chlorine in the front line trenches and the substance was used in the form of gas clouds. As chlorine is about two and a half times as heavy as air, the clouds were carried over the ground by the wind. When it reached the British trenches it was first noticed by the men in ten thousand parts of air, the struggle for breath becomes acute, and a man would probably be put out of action in about five minutes.

Chlorine, in the presence of water, is a powerful bleaching and disinfecting agent. It is used for the purpose of bleaching cotton, linen, wool pulp, and flour, but cannot be used for wool or silk because it hardens and destroys these materials. The bleaching of cotton fabric is a powerful bleaching and disinfecting agent. It is used for the purpose of bleaching cotton, linen, wool pulp, and flour, but cannot be used for wool or silk because it hardens and destroys these materials. The bleaching of cotton fabric is a powerful bleaching and disinfecting agent. It is used for the purpose of bleaching cotton, linen, wool pulp, and flour, but cannot be used for wool or silk because it hardens and destroys these materials.

Chlorine is also used in preparing certain chlorine compounds such as chloroform and carbon tetrachloride (used in fire extinguishers). It is also used in the preparation of many compounds which are needed in the explosive and chemical industries. Liquid chlorine is used in water purification and since its introduction for chlorinating water supplies, typhoid fever has been reduced to a minimum in many of the great cities of the world. Recently liquid chlorine has been used in recovering gold from its ores, and also in recovering tin from old tin cans and scrap tin.

One of the most important compounds of chlorine is hydrochloric acid gas. A water solution of this gas is called hydrochloric acid or muriatic acid. This acid is an important component of the gastric juice of man and of animals. The acid plays an important part in digestion.

Dominion Drama Festival

A Royal Charter Has Been Issued To Assure Perpetuation

To assure perpetuation of the Dominion Drama Festival after the departure of the Earl of Esborough, a royal charter has been issued, it was announced by the C. H. C. secretary of state. The corporation will be under the name of "The Governors of the Dominion Drama Festival."

In a statement Mr. Cahan said the charter was being issued as a memorial to His Majesty's Silver Jubilee. The charter recited the stimulation of interest in and the encouragement of the dramatic art in Canada the festival had provided.

The charter gave the new body power to hold real and personal estate and to acquire and to hold not more than \$25,000 in real estate. Provision was made, the statement explained, for appointment of general and district officers, granting prizes and awards on such conditions as might be prescribed.

Children's Orchestra

Kansas Organisation Of 95 Tots May Take Trip To Japan

Thomas Bruce knows what to do with children who insist upon making loud noises—put them in a symphony orchestra.

His organization, the Kansas City tot symphony, with 95 children ranging in age from four to nine, has proved so popular plans are being made to take it to Japan in 1936, Bruce said.

These children, some of whom started training for the orchestra when only two years old, play such "pre-lude" pieces as Rachmaninoff's "Prelude." They also take turns at directing.

Tribute To R.C.M.P.

Sir James H. MacBrien Makes Reference To Honor Conferred By His Majesty

Sir James H. MacBrien, commissioner of the Royal Canadian Mounted Police, who was given the honor, Knight Commander of the Bath in the King's birthday honors list, said he deeply appreciated the honor conferred upon him by His Majesty. "It is not a personal honor so much, I think, as it was a tribute to the good work being done by the Royal Canadian Mounted Police," Sir James said.

NEWSPAPERS ARE SOUGHT IN OUR HOMES

Did you ever stop to think that people read The Enterprise because they want to. It is not forced on anyone. People pay for it and read it regularly. Whole families await it eagerly and contest good naturedly over their individual turns to read it. Each praises and criticizes it as one is prone to criticize the other members of the family. The Enterprise is a definite part of the family; that is why its sales force is immeasurable. Door to door handbills are most times an intrusion upon the privacy of the home, but The Enterprise is invited in. Its messages are read avidly, and its advertisements are considered a part of these messages. The Enterprise is so definitely a part of the people, so much an accepted member of the family, that its pages constitute the finest and least expensive advertising medium yet devised.

Fred C. Moyer, K.C., addressing an audience at Drumheller, stated that "the province of Alberta would be in the hands of a receiver in sixty days if Aberhart was elected. As soon as Aberhart gets into power (if elected) he will have to borrow three million dollars immediately to carry on the work of the government, and another eleven million to meet maturing bonds—14 millions in all—and what bank is going to loan that amount of money to a man who is later to be responsible for closing their doors? Aberhart's method is nothing but an elaborate taxation system," he continued. "He suggests a tax of 43 cents per bushel on wheat, and if further money is needed to buy outside of the province, an appropriation of citizen's life insurance, which is nothing short of straight confiscation."

Bright Stories about Wine

SPECIAL GRAPES

- It is true that a wine can be made from any grape. In the same sense it is true that one could make a race between a team of horses which had spent the best part of their lives in the plow. If the grape is to be regarded merely as an agent of intoxication, then the end can be gained with potatoes, dandelions or any other vegetable matter that ferments. But the truth is that comparatively few kinds of grape are used by reputable vintners to make wine. This is a fact not generally known, or perhaps the public is interested not so much in the reasons as the results. Nevertheless we think it appropriate enough as part of an educational campaign to note some of the differences in the various grapes.
- When one says that all that is required of a grape is that it should be palatable or readily converted into wine, he speaks with a generality and positiveness that growers and wine makers might well envy. Most of our own wines come from the Concord grape, but there are scores of grapes which are cultivated, each having one or perhaps more than one desirable quality. For instance, the Catawba grape has several advantages except that of early maturity, and it is restricted to an extremely narrow district. The Elvira, a white wine grape, has a skin that bursts easily, and therefore it is a bad shipper.
- The Delaware is a meagre yielder and is not vigorous. The Norton matures too late for our Canadian climate and is difficult to propagate. Other varieties have what is called a foxy flavor. This is characteristic of the Concord, of course, but some connoisseurs admire it. There is a demand, however, among experts for a grape that lacks this characteristic odor, and experiments to this end are going forward. But undoubtedly the science of viniculture will overcome this obstacle, if indeed it is an obstacle. In some of our wines this peculiar bouquet is absent.

Neon signs are appearing in Blairmore. For some months, those who had contributed towards the advertising on these signs feared that their money had been thrown away, as is usual, to transients who had no intention of fulfilling their contract. Now, following some possibly unavoidable delay, they seem to be all satisfied that something is to be realized for their money invested. A splendid independent sign was erected in front of the Cosmopolitan hotel yesterday, and, we understand, the big Victoria Street sign is to be in full operation within a day or two.

The Miners' Club at Hillcrest and the Legion club at Bellevue passed resolutions urging merchants to ship in freight and express for their stores by railroad, and shippers of beer in Calgary were also urged to do likewise. Mine workers realize that railroad traffic increase means more work for miners as well as railroad men. Retail merchants secure 100 per cent of their business from mine workers earnings. Is it not a matter of self-preservation for retailers to use transportation companies who use coal and thereby help to provide work for those who work in the mines? Our vital interests come first, especially from a business standpoint. —Coleman Journal.

OLD ADVERTISING AGENCY MAKES CHANGE IN NAME

Announcement is made in the Ontario Gazette that the change of name of The Press Agency Bureau Limited to The Adriel Advertising Agency Limited has been sanctioned by the lieutenant-governor.

This is one of the world's oldest advertising agencies, having been organized in 1890. Throughout the years it has kept consistently in advance in the development of agency services in national advertising, market research and business counsel.

During the past five years Mr. Lorne Ardiel has been the president of the agency, utilizing his wide knowledge of Canadian markets, distribution and business conditions to enhance further the type of service given to the Company's clients.

A LITTLE COMPANY GROWN BIG

IMPERIAL OIL was a little Company in 1880. There was then only a handful of employees. A dozen or so products were the Company's stock in trade.

Today nearly 18,000 Canadian men and women are engaged in making and selling 714 different Imperial Oil Products. So, counting their families, there are about 90,000 people directly dependent for livelihood on this Company and its operations. 90,000 is a lot of Canadians.

Imperial Oil's growth depended upon more than growth in population and demand. Fair dealing, honest value and the ability to meet new needs with

new products and new services all played their part. Of course, a loyal, capable staff was indispensable. Such a staff was built up by fair and considerate treatment. Good wages, sickness and death benefits, retirement pensions, group insurance, industrial councils—these are some of the measures by which the Company has recognized its responsibility to the men and women in its employ.

These men and women have recognized in turn their responsibility to the Company. By loyal, whole-hearted service they have helped it to make better products at lower cost and thus become "a big company."

HOW TO MAKE ICED TEA

Infuse six heaping teaspoons of Salada Black Tea in a pint of fresh boiling water. After six minutes strain liquid into two-quart container. While hot, add 1/2 cup of granulated sugar and the juice of 3 lemons. Stir well until sugar is dissolved; fill container with cold water. Do not allow the tea to cool before adding the cold water; otherwise liquid will become cloudy. Serve with chilled ice.

"SALADA" ICED TEA

Funerals Without Flowers

Within recent months the writer has attended a number of funerals, joining with other friends and loved ones in paying respect to a deceased friend. Some of these funeral services have been held quietly and simply in the home, with only a few of the nearest relatives and closest friends of the departed one present; others have been held in churches in order that the larger circle of the deceased's friends and associates in his or her life's activities might be present, or where the religious tenets of the departed might be properly observed. In one case just a few persons were present, people who had voluntarily made contributions to prevent the remains of the one who had passed on from being consigned to the potter's field.

In the vast majority of cases there were flowers in profusion, wreaths, emblems, sprays, dozens and scores of them, representing an expenditure of many dollars. And the thought constantly protruded itself whether such lavish display of floral tokens was right, in good taste, even in keeping with our Christian beliefs. It could not be questioned that in many, probably most, instances these flowers were sent out of love or a sincere respect for the deceased. Equally true, no doubt, in numerous instances flowers were sent because it has become the custom to send them.

As a matter of fact, as in the case of weddings, the tendency seems to be in the direction of making funerals more and more elaborate, more expensive, more and more something of a spectacle. The quiet and simplicity in funerals of former days has largely passed, until now it has become a source of heavy expense and consequent worry to people who are not blessed with an over-abundance of this world's goods. Yet because of prevailing custom, nobody wishes to appear mean in the eyes of others when called upon to discharge the last duty to a loved one.

Many people think of these things, believe present customs are wrong, but seldom openly express themselves. In a recent spirited article entitled "Decent Christian Burial", Marian J. Castle attacked the extravagance attending funerals. She showed how sums spent on flowers, tombstones, pomp and ceremony, often impoverish the living families of the deceased. She wisely inferred that the dead might be happier if the funds showed upon their inanimate bodies were used instead to brighten the lot of the living.

Discussing this same subject, Alma Hedin, sister of Sven Hedin, the famous Swedish explorer, says it is in the spirit of the times in her country to seek the simplest and at the same time the most dignified memorial for those we have loved. She outlines various services in this direction, including the provision of funeral insurance through the agency of a society, which takes charge of all funeral arrangements, which are the same for every individual. Payment can be made to the society at any time during the lifetime of the insured, the premium being smaller for the young than for the old. The highest premium is paid by those who are over 70, and is about \$75 in all. This provides for a dignified funeral of a kind that might otherwise tax the resources of the bereaved family, especially when the deceased happens to be the breadwinner.

In Sweden, too, they have had since 1921 an organization called the Flower Fund, formed to honor the dead "in a more worthy and more lasting manner" than with ornate floral tributes for the bier. Instead of sending an expensive wreath, the friends of the deceased remit the money to the Flower Fund, which sends to the bereaved family a simple memorial message in the name of the giver. The amount contributed remains a confidence between the donor and the Fund.

It was decided that the money received in this way should be applied to obtaining houses with small apartments for old people in straitened circumstances. When three and a half years had passed, the Flower Fund erected a large building on a site donated by the city of Stockholm. Soon a second house rose by the side of the first, and before long six additional houses were built. By this means the Fund provides for more than a thousand old people. These pay a lower rent than they would pay elsewhere and receive care if they are ill. Otherwise they are quite free, and there is nothing institutional about the place. It is like a private home.

There is a restaurant in each building where residents can buy lunch or dinner for a quarter of a dollar. They may have meals sent to their rooms or prepare them in the small kitchen that accompanies each apartment. Food can be purchased in the building, and there is also a laundry and a bakery. The old people seem to be happy under these arrangements, for there are always more applications than can be filled.

Swedish death notices often contain a line asking that the Flower Fund be remembered. Sometimes another charity is named, for the example is contagious. The important thing is not that the money is donated to a single cause but that the memorial be given a form that will honor the dead by benefiting the living.

Does this Swedish idea not offer a suggestion to the people of other countries? Can we not make our tributes to our deceased loved ones something more lasting than quickly withered blossoms?

Fatal Kiss

Fruitful Method Of Transmitting T.B. To Children

"The kiss of the tubercular mother is often the kiss of death," stated Dr. H. E. Kleinschmidt, director of health education of the National Tuberculosis Association, New York. Dr. Kleinschmidt, who addressed the national health conference at Toronto, said "kissing is a high road in the spread of tuberculosis." While mothers always kiss their children full on the mouth, "they should realize that unless they have been examined and are certain that they have not tuberculosis in a transmissible form, their kiss may be a kiss of death."

Securing Farm Data

Department Collecting Statistics Relative To Agricultural Industry

As an aid to national planning the bureau of statistics at Ottawa is anxious to enlist co-operation of western farmers in the matter of supplying data regarding their holdings. In June of each year, the bureau, in co-operation with the provincial departments of agriculture, distributes cardboard schedules to farmers for the purpose of collecting statistics of acreage under crop and the numbers of livestock and poultry on farms. An innovation of 1931 extended this survey to cover the breeding and marketing intentions with regard to livestock. In all of the provinces, except Prince Edward Island, Nova Scotia, Alberta and British Columbia, these schedules are distributed to the farmers through the rural school teachers.

Perished In The Desert

Bodies Of Man And Woman Found On Scorching Sands Of Sahara

A searching party found the bodies of an Englishwoman and an Englishman on the scorching Sahara sands recently and rescued two Frenchmen near death from thirst.

The woman, Mrs. Knight, widow of an English aviator who committed suicide recently at Agades, French West Africa, had slashed her wrist apparently in an attempt to end her torture from thirst and heat.

A party of four—Mrs. Knight, Peyton, an English resident of Switzerland, and two Frenchmen, Kneebret and Chaveux—left Agades by truck May 22 for Tamarausert, Tawarek. After the quartette were missing four days a searching party left Agades for them. It found the Frenchmen in a serious condition beside the truck near a dried-up river bed.

WHY HIS HEADACHES CEASED

Wife Put Kruschen in His Coffee

He could not understand why his headaches he had been subject to suddenly ceased. His wife told him, and he at once sat down and wrote the following letter:—

"I am 62 years of age, and ever since I was a boy of ten years, I was subject to very bad headaches. But two years ago the headaches stopped—for what reason I did not know. I was surprised when one day my wife told me I had been using Kruschen Salts in my coffee for over two years. I am still using them, as I know of nothing finer for the system.—J. T.

Headaches can nearly always be traced to a disordered stomach, and to the unsuspected retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you'll never have to worry any more. And that is just how Kruschen Salts brings swift and lasting relief from headaches. Kruschen Salts aid Nature to cleanse your body completely of all clogging waste matter.

Special Adviser

Lord Weir To Assist In Expanding Royal Air Force

Lord Weir, great war aeronautics expert and an international authority on aviation, was named by the British government as its special adviser in the work of expanding the Royal Air Force.

Stanley Baldwin, lord president of the council, announced the appointment to the House of Commons in outlining plans for the tripling of the British air force during the next two years.

Lord Weir will be known as the government's official counsellor of aviation.

Control Of Press

Irish Newspapers' Apprehensive Of Free State Policy

Hints thrown out in Dublin that the department of justice is contemplating to control the press, have created some apprehension among Irish newspapermen. Spokesmen of Eamon de Valera's Republican government declare it has never got a square deal from the press, home or foreign.

Weekly letters sent from Dublin to papers published in the Irish provinces have also incurred displeasure of the government, acting through its official information bureau, and detectives of the special political branch of the police have been ordered to pursue inquiries as to the correspondents responsible.

Following a precedent set up by the government of William T. Cosgrave, Mr. de Valera's administration has begun the practice of withholding government advertisements from certain newspapers which actively support the opposition. The Cork Examiner, a daily newspaper in Munster, was deprived of advertising when it refused to publish a press release on the "Grow More Wheat" plan in full and without comment.

A Farm On Wheels

Has Grown New York Children A Real Thrill

A crowd of New York school children of Manhattan, who get little thrill out of seeing notables promenade Broadway, went into a state of virtual delirium as they watched a farmer milk a cow.

The farm on wheels, complete with a farmer's daughter, was the idea of James V. Mulholland of the Parks Department, who wanted city children to see what a real barn looked like. Described as a sort of land-going ark mounted on a trailer, it played a number of three-day stands at various city parks.

When it began its barnstorming tour it was viewed by hundreds of school children who flocked to see it in Central Park at a "preview." The personnel of the travelling "stock company" included a red Jersey cow and her twin calves, a sheep and two lambs, a goat and two frisky kids about a month old, a white turkey gobbler, a little runt piglet and a hen and four chicks.

Testing Station In West

Hog Feeding Tests Now Being Made At Saskatoon

The Advanced Registry hog feeding station at the University of Saskatchewan is now in full use at Saskatoon. This station, the first in the West, will be taxed to capacity this year, according to Professor Grant McEwen. It will accommodate 25 litter tests, and so rapidly is A.R. work progressing in Saskatchewan that it is feared this station will not be sufficient to handle all applications. The first three litter representatives arrived for testing in the Saskatchewan station early in May.

Eight thousand gallons of oil probably will be used in the campaign this year.

Medical World Endeavors To Discover Virus For Treating Common Colds

There is a virus that has something to do with the common cold and that's what so far has eluded the medical world. When it is discovered what that virus is, then the cold may be squelched.

"The germs of the common cold are well known," Dr. E. C. Sewall, of San Francisco, told the convention of the American Laryngological Association in Toronto, "although I believe there is a virus which is not yet known. This virus, in my opinion, is the product of all these germs that go to cause the common cold."

Persons who suffer from frequent colds are probably suffering from the same cold all the time, he said. He said a cold creates an immunity of six months or so.

"This," he said, "is probably the reason for the endemic source of colds. These people carry the source of infection in chronic sinus trouble and spread infection to other people."

Long Service Medal

Old Member Of Mounted Police Receives Order Of Recognition

An official recognition of his long service with the Northwest Mounted Police in the west's early days came to special Constable ("Gentleman Joe") McKay at Prince Albert when he was presented with the long service medal.

Forwarded from headquarters of the Royal Canadian Mounted Police, Ottawa, the medal was presented to Mr. McKay by Inspector F. W. Schutz, officer commanding this subdivision. Mr. McKay retired many years ago.

"Gentleman Joe" is said to have fired the first shot in the Riel rebellion, 50 years ago at the Duck Lake fight.

Television In Original Colors Is The Newest Sensation

Reports of a television invention by Leon Damas, a radio amateur, enabling pictures to be projected in original colors simultaneously with sound, stirred Belgium recently. The newspaper Le Peuple said Damas made the invention "almost by chance" while experimenting with apparatus for seeing in the darkness. The invention was reported to employ a special screened lamp, whole production costs of which were said not to exceed \$10.

Officers To Retire

Three Assistant Commissioners Of R.C.M.P. To Retire On January 1st Next

Royal Canadian Mounted Police announced impending retirement of three assistant commissioners, A. J. Cawdron of Ottawa, C. Junget of Halifax and J. W. Phillips of Vancouver. They will be granted leave from July 1 and retired next Jan. 1. Assistant Commissioner Junget was engaged in the North West Mounted Police in 1899 and passed through the non-commissioned ranks until he was appointed inspector in 1907. He became superintendent in 1922 and assistant commissioner in 1932. He is now officer commanding "21" division at Halifax.

Assistant Commissioner Phillips, officer commanding "22" division at Vancouver, joined the North West Mounted Police in 1898 and passed through the non-commissioned ranks. He was appointed inspector in 1931, superintendent in 1931 and assistant commissioner in 1934.

Would Abolish Military Aviation

Londoners Vote For Limitation Of Armaments

Universal abolition of military aviation and limitation of armaments were favored by an overwhelming majority in a straw-vote conducted by the League of Nations union in Greater London, the union announced.

On these questions and on the question of supporting the league and forbidding the manufacture of arms for profit, the vote favored the proposals by 1,400,000 to 88,521 for use of economic sanctions against an aggressor, whatever the action might be, and 874,275 to 366,664 for use of military sanctions if they were found necessary.

Young Lambs Make Trip

Long Jaunt Did Not Appear To Harm Them

Young lambs are good "trailers." Recently the University of Saskatchewan, Saskatoon, moved its ewe flock to summer pasture at Beaver Creek and the ewes, with lambs at foot, made 10 miles the first day and completed the journey easily the second. Some of these lambs were no more than four days old.

"The long jaunt did not appear to hurt the lambs a bit," said Dean A. M. Shaw, "and after their 10 mile trip they were fresh and perky. Of course, the weather was cool, but the observation is of particular interest to ranchers and B.C. shepherms when moving their stock from winter to summer range."

BYNG OF VIMY HERO OF WAR DIES IN ENGLAND

Thorpe-Le-Soken, Essex.—Staunch warrior in war and in peace, Field Marshal Julian Hedworth Byng, first Viscount Byng of Vimy, commander of the Canadian Corps in the Great War and later governor-general of Canada, is dead. He was 72 years old. Death came to one of the empire's most dogged and gifted of fighters after a last-chance operation. Byng had been failing in health in recent years. He returned only a few months ago from another cure journey to Canada and California.

Byng, a soldier all his life until summoned first to the governor-generalship of Canada and then to reorganize the Metropolitan Police of London, had the time of his life in morals, had the hearty respect of the empire's foremost military men, among them the great civilian soldier the late Sir Arthur Currie, who succeeded Byng in command of the Canadian corps.

Genial with reserve, courteous to a fault, Byng of Vimy performed his duties and never followed those other leaders whose jealousy or honest disagreement with superiors found vent in statements or autobiographies.

He was called to the western front a few weeks after the opening of the Great War. He was perhaps the last man in history to wage invaluable cavalry campaigns that now find no place in major warfare; he was the genius of the triumph of Vimy Ridge, when a hundred thousand Canadians under his leadership overran the last teeth of the last great German offensive, hounded on Byng's own Cambrai strategy. He was ready in the final Allied drive, behind the ground-breaking Canadian advance to Mons.

Byng after that was promoted commander of the Third Army which had support of the Canadian Corps, and saw his Cambrai campaign, one of the most brilliant military conceptions of the entire war, neutralized for lack of troops and support. He was promoted general after that effort late in 1917, and in the spring of 1918 his Third Army hung on valiantly in the teeth of the last great German offensive, modelled on Byng's own Cambrai strategy. He was ready in the final Allied drive, behind the ground-breaking Canadian advance to Mons.

Taking Traffic Census

London.—Ten thousand enumerators will be engaged during the week of Aug. 12 on the greatest traffic census ever taken in Great Britain. They will keep watch from between 5,000 and 6,000 specially selected points to count pedestrians and vehicles. This census is to provide adequate data for road improvement on a scientific basis.

The Western Split

Vanguard, Sask.—Thirteen men with 50 horses and a tractor gathered at the farm of Mr. W. H. Williamson, during the illness of her husband, and put in 150 acres of crop. Charlie Swaney and James Miracle organized the "bee" and everyone joined heartily in the event. The women of the community came and assisted with the cooking.

Social Credit Campaign

Calgary.—William Aberhart, Alberta Social Credit League leader, said in an address here that a group of Manitoba men had informed him they were raising funds to enable him and other Social Credit speakers to fly to Manitoba as soon as Alberta schools close. Mr. Aberhart is principal of Crescent Heights high school in Calgary.

U.S. Air Bases

Washington.—Without a whisper of opposition, the house of representatives penned swift approval on a bill to give the army blanket authority to dot the United States with strategic air bases to provide peace-time training for the air force and war-time defence against invasion. The measure now goes to the senate.

Heads Authors' Association

Montreal.—Dr. P. H. Edgar, of Toronto University, was elected president of the Canadian Authors' Association at the third session of the annual convention. He succeeds Dr. C. W. Gordon, Winnipeg. B. K. Sandwell, Toronto; Nellie McClung, Winnipeg and Jean Bruchac, Montreal, were elected vice-presidents.

C.M.A. For Fair Wages

Evidence of Manufacturers Not Treating Employees Fairly
Hamilton, Ont.—Question of whether or not the Canadian Manufacturers' Association should frown on "improper wages" featured the association's 44th annual convention here. Discussion followed the report of the executive council. A. J. Roden, Toronto, introduced the subject in the section of the industrial relations' committee report which recommended the association should still adhere to its traditional policy of insisting wages, hours and conditions of employment generally should be agreed upon between employers and employees.

This was urged in connection with the Ontario Industrial Standards Act, which had been opposed by the association.

"In theory the tradition is right, but it does not always work out in practice," Mr. Roden said. "Some firms abuse this method of engaging employees and pay a very low scale of wages. Perhaps the time has come when decent firms should be protected against ones which buy labor at a cheap price."

E. C. Burton, Toronto, supported Roden, declaring there was too much evidence of manufacturers not treating employees fairly.

"It is time something was done in this regard," he said, in urging passage of a resolution which would state members were not in favor of countenancing unfair wages.

Melville White, Toronto, thought the word "agreement" covered the matter, but Mr. Burton pointed out an employer could agree to pay low wages.

"What I referred to was the 'take it or leave it' type of employment," Mr. Roden remarked.
After Alexander Donald, Hamilton; Elmer Davis, Kingston; W. C. Coulter, Toronto, and others had spoken, the convention passed a motion instructing the resolutions committee to frame a motion on the point.

May Be Tax Free

Proposal To Exempt Members And Senators From Income Tax

Ottawa.—Finance Minister E. N. Rhodes may introduce a bill later this session to exempt the indemnities of members and senators from income tax. To absolve members from the charge of legislating for themselves, the bill will not apply to the present parliament.

When the house was discussing income tax changes, Hon. J. L. Ralston, Liberal financial critic, suggested members should be allowed exemptions for living expenses in Ottawa. He claimed it was unjust to tax members for the full indemnity when it was necessary for them to spend most of it to earn it.

The financial critic suggested \$4,000 indemnity should be exempt from income tax and was prepared to recommend a change in the law to the incoming parliament.

Minimum Wage Act

Ottawa.—With an added provision respecting wages due an employee, the senate banking and commerce committee approved the re-drafted minimum wage bill. The clause inserted provides that in any prosecution of an employer for breach of the act, the court may order payment to the employee concerned of the amount of wages proved to be unpaid or short paid.

Tariff Changes

Ottawa.—Since Aug. 1, 1930, there have been 471 increases in the tariff schedule by act of parliament and four by order-in-council with 366 decreases by parliament and seven by order-in-council, according to a return tabled in the House of Commons. The information was requested by J. P. Foullet (Liberal, Temiscouata).

Earthquake Toll In India

London.—Salvage operations in the earthquake-stricken city of Quetta, India, have been indefinitely suspended, the India office announced, because of the "appalling stretch." Official estimates placed the deaths in the Quetta area at 56,000, with 20,000 dead in Quetta itself. Population of the city was more than 60,000.

May Issue Stock Permits

Ottawa.—Permits will be issued for the importation of cattle, sheep and other ruminants and swine into Canada from Scotland, on and after June 20, providing no outbreak of disease occurs there among such animals in the meantime. It was announced by the department of agriculture.

Breach Of Contract

Earl Of Egmont, Sued By Calgary Nurse, Settles Bill

Calgary.—Alberta's millionaire ranchman, the Earl of Egmont, sued for \$86 by Miss Zita Kerchoff, a Calgary nurse, has settled for an "unspecified sum." It was announced in the district court.

Judge W. A. Macdonald, who ruled there had been a breach of contract, was advised of the settlement.

Miss Kerchoff claimed she was entitled to \$86 from the 21-year-old earl, representing a "waiting fee" prior to the birth of Viscount Perceval last year. She was dismissed before the heir to the Egmont fortune was born.

New Title Gazetted

John Buchan Is Now Baron Tweedsmuir Of Elsfield

London.—The barony conferred upon John Buchan, governor-general designate of Canada, was officially gazetted as "Baron Tweedsmuir of Elsfield."

The title Tweedsmuir recognizes the distinguished author's youthful associations with the village of that name on the Tweed, Elsfield Manor in the county of Oxford is his home.

LEGAL RIGHT OF PROVINCES TO TAX INCOMES

Ottawa.—A province has a legal right to collect income tax, Finance Minister E. N. Rhodes told the House of Commons when T. L. Church (Cons., Toronto East) expressed alarm at the prospect of Ontario duplicating the federal impost and abolishing municipal income taxes.

The finance minister expressed hope that before long a settlement would be reached on the over-lapping of provincial and federal taxation fields. It had been on the agenda of the Dominion-provincial conference scheduled for last fall but not held.

The house gave third reading to two bills implementing sections of the last budget. All changes in the tariff and income tax were enacted into legislation without prolonged debate. From the day the budget was presented until approved the actual debate in the house has been less than in any recent year.

The Toronto member suggested Canada follow the lead of the United States and public income figures. A Washington investigation, he said, disclosed shocking conditions of millionaires escaping taxation and he believed a similar situation might be found in Canada.

Mr. Rhodes did not reply.
Hon. W. D. Ehler (Lib., Waterloo North) objected to continued duplication and multiplication on shareholders of companies. He protested the present system was "an absolute injustice," even though it was practiced by the former Liberal government.

Will Try For New Record

Sir Malcolm Campbell To Make Attempt To Better Automobile Record In July

London.—Sir Malcolm Campbell, British sportsman, will attempt to better his own world's automobile speed record at Salt Lake City in July, he announced.

Speaking before an advertising club luncheon gathering, Campbell said he would leave for Utah in July for a new record attempt that month. He lifted the record to 276.816 miles per hour at Daytona Beach March 7. "It is impossible to rely in the future on the beach if you wish to do anything in the region of 300 miles an hour," the sportsman said. "You must have 100 per cent perfect conditions for high speed. We are now carrying out further tests for our attempt in July."

Wheat In Storage

Canadian Wheat In Storage At End Of May Shows Decrease

Ottawa.—Canadian wheat in store for the week ended May 31 amounted to 202,120,349 bushels, a decrease of 2,067,128 bushels compared with the previous week, the Dominion bureau of statistics reported. On the corresponding date last year the visible supply was 200,336,042 bushels.

Canadian wheat in the United States amounted to 9,570,703 bushels, a net decrease of 824,322 bushels against the previous week, and an increase of 4,118,502 bushels compared with the same period last year.

Penalties Are Reduced

Senate Adopts Amendment To Weights And Measure Bill

Ottawa.—Minimum penalties for false or unjust weights under the weights and measure bill increasing the punishment for short weights were reduced by an amendment adopted by the senate banking and commerce committee.

Maximum penalties provided in the amending measure were passed without change.

For a first offence, an individual engaged in trade would be liable under the amendment to a minimum fine of \$10 and a minimum of \$50 for a subsequent offence. The bill as received from the commons had provided for a minimum fine of \$50 for a first offence and \$100 for a subsequent offence. The maxima stand at \$100 for a first offence and \$250 for a subsequent offence.

In the case of a corporation, the minimum for a first offence was reduced to \$10 and \$50 for a subsequent offence from \$1,000 to \$500. The maxima set out in the measure of \$500 for a first offence and \$5,000 for a subsequent offence remain.

Drouth At The Coast

Crops On South Vancouver Island Suffer From Lack Of Moisture

Victoria.—Scorched by the sun and dried by the wind, southern Vancouver island is experiencing one of the worst drouths in recent years. Crops in many areas are parched and withered from the three-month thirst. In many cases they have been reduced 50 to 75 per cent, while in others they are pronounced complete failures.

Such uncultivated land is bone dry to a depth of one to three feet, while in some places the drouth has reached the hard pan. A three-inch coating of dust protects the moisture on well-cultivated berry plantations and orchards, but long before the heat will dry it out is a matter of conjecture.

Some plowed fields are dreary stretches of dusty gray-brown. In some of them, seed which was sown a month ago has not yet germinated.

Many Applications Received

No Shortage Of Recruits For Royal Air Force

London.—The air ministry announced approximately 38,000 inquiries had been received up to June 1 for tradesmen and mechanics for the Royal Air Force. More than 8,500 inquiries had been received for pilots, officers and airmen. None of these so far had been accepted or interviewed.

The ministry said it was too early yet to give details regarding the origin of the recruits. The inquiries came after the announcement of a rapid expansion in the air force.

SEEK APPROVAL OF NEW MIDGET N.R.A. PROPOSAL

Washington.—With President Roosevelt's midget N.R.A. proposal heading toward quick congressional approval, Senator Robinson of Arkansas, Democratic leader, predicted no further legislation on the subject at this session.

His statement, conditioned by an assertion unforeseen conditions might make a further move necessary, capped a day in which the United States capital sought to gauge conflicting indications of the administration's intention.

"If N.R.A. is extended with the exception of those features and provisions held invalid by the court," Robinson told reporters, "I do not now expect further legislation on the subject during the present session."

Meanwhile Donald R. Richberg, N.R.A. chief, left a discussion with President Roosevelt saying he did not expect to head the temporary N.R.A. contemplated by the president.

A generally prevailing opinion was that the president was keeping in mind his expressed intention of obtaining for the federal government clear constitutional authority for dealing with national social and economic problems, a question he said must be decided by "the United States as a whole."

Meanwhile before the senate foreign relations committee, the administration program for reciprocal tariff treaties was challenged as an unconstitutional delegation of legislative power by Senator Arthur Vandenberg, Michigan Republican. He maintained the point was proved by the N.R.A. decision.

DECLARES PUBLIC CONTROL OF RADIO IS THREATENED

Ottawa.—An active movement exists in Canada to destroy public control of radio, Premier R. B. Bennett warned the House of Commons. He exhorted members not to pay heed to it and strengthen not weaker radio as a public utility.

At the same time it was announced the government will introduce a bill in a few days to extend the life of the radio commission until March 31, 1936. This would permit, as Minister of Marine Affairs Durnan said, "another parliament to decide whether it should be abolished or its power modified."

"The truth is," said Mr. Bennett, "that the effort to destroy this public utility is a very real one. Whether or not that utility can be saved will depend upon the attitude of this House of Commons toward it and its willingness to realize a country as poor as we are cannot spend at once the money required to make this facility as perfect as it should be."

A large sum of money would be necessary to give perfect broadcasting in Canada, continued the prime minister. The money would have to be spent in one large sum or gradually—that was a decision to be made by the country.

"The life or death of our adventure in the field of public ownership depends largely on our willingness to nurse this infant until it can become strong enough to feed for itself."

The house passed a vote of \$1,500,000 for the radio commission which approximates the money collected by the marine department in licenses. The marine minister said the commission had plans for building high-power stations in different parts of the country, mentioning Vancouver as one. The difficulty was to find the money to make a start.

Liberal and Labor members embraced the occasion to attack the famous regulation nine of the commission which they claimed forbids any rate speaker to criticize existing legislation. This would puzzle election speakers, they claimed, and practically close the air to opposition candidates.

Mr. Durnan claimed the regulation was not designed to puzzle election speakers but to stop defamatory speeches, prevent slander and broadcasts contrary to the purpose of any election. It had never been used, he said, and he was willing to submit it to the commission for an explanation and withdrawal if, necessary.

Frowns On Divorce

Church Of England Rejects Move To Change Rulings

London.—A move to permit divorce and re-marriage in the Church of England, and to urge civil authorities to make divorce more liberal, went down to defeat 81-26 before the Church of England synod.

The proposal was introduced by a minority group of bishops, led by Rt. Rev. Ernest William Barnes, bishop of Birmingham. Its sponsors urged since divorce was permitted by the civil laws, the church no longer had any need to frown upon it in all cases.

Eight-Hour Day Bill

Ottawa.—The eight-hour day bill, riddled with amendments by the senate banking and commerce committee, was given third reading in the upper house. It will go back to the commons for concurrence in the changes, chief of which is a reduction in time for bringing employees in the railway running trades under its provisions.

Fast Ocean Liners

New York.—The men who direct the Trans-Atlantic Steamship Lines predicted future ships may not greatly exceed the mighty Normandie in size or speed. For the man who desires the best, the church no longer has any need to frown upon it in all cases.

Japs Hold Discussion

Paris.—Nine Japanese ambassadors and ministers in European capitals met here in a secret conference, reportedly to discuss to what extent Japan would participate in European affairs. Japanese sources refused even to admit it was a "conference," preferring simply to call it "a discussion."

A very prominent citizen of Alberta was in town on Thursday last, and seeing the boulevard with the sprays in full operation, could not avoid remarking: "Isn't it damn foolery!"

Slightly over a week ago, we were warned that if we didn't let up with our campaign against the reds that a local war would break out. Probably an order has already been sent to Moscow for armaments.

The flag was flown at half-mast at the local telephone exchange on Thursday last in honor of the memory of Baron Byng of Vimy, whose death was reported. Baron Byng was governor-general of Canada from 1921 to 1926.

A fat lady was walking up the street in Blaimore on Saturday when she met a skinny lady, who asked: "How's the united front?" Quite peeved, the fat one retorted: "Mind your own da—n business! My front is my business!"

The C.P.R. are not charging the town of Blaimore a solitary cent for improving their property. Years ago, the company were prepared to meet the town more than half way with a park building and maintaining idea. Such co-operation as at present being displayed is excellent.

Commenting on the Douglas Social Credit report as published last week, W. R. Howson, K.C., provincial Liberal leader, said: "The government, having spent a considerable part of the taxpayers' money to pay for Major Douglas' report, should now hire a commission to translate it into English. I have never seen such a conglomeration of words that mean nothing."
